ABOUT ME

Engineer in training motivated and eager to take on important projects at national and international level. I strongly believe that each person's actions can help to change the world, so I would like to contribute and guide this change towards a more just world.

One of my main interests is to associate the technological part of engineering with the domain of management.

MY EDUCATION

● **MS Industrial Engineering and Management** 🎓
Faculdade de Engenharia da Universidade do Porto 📍 Porto 📅 2021 – on going
Develop skills that allowed me to plan and manage systems, with strong interactions between human, financial, organizational and technological variables, providing me with the solid training necessary for their integration into the job market.

● **BSc Industrial Engineering and Management** 🎓
Universidade de Coimbra 📍 Coimbra, Portugal 📅 2018 – 2021

MY EXPERIENCE

● **Quality and Production Manager Internship**
IRMADE - Indústrias de Revestimento de Madeiras 📍 Ourém 📅 2022
– Organizing and filtering documents
– Preparation of customer and product folders

● **Quality Manager Internship**
Verdasca Group 📍 Gondemaria 📅 2021
– First experience in a professional environment
– Ensured products are designed with adherence to legal and safety standards
– Contributed to the analysis of an audit

● **Delegate of the 3º year**
Mechanical Engineering Students Association 📍 Coimbra 📅 2020 – 2021
– Responsible to maintain the contact between the teachers and students
– Spokeswoman of the Students
– Responsible for solving eventual problems that might happen

● **Human Resources Collaborator**
Junior Enterprise for Science and Technology 📍 Coimbra 📅 2020 – 2021
– Organization of Events
– Integration of the Trainees (Team-Building, ...)
– Publicize Events and Involve the Community in JEST Activities
